

**Rigpass  
With or Without  
Safegulf or Safeland Endorsement**

Page 1 of 1

**Overview:** The key objective of Rig Pass is to provide new employees with a basic orientation of rig operations and safe work practices. Ideally, this should occur before the employee begins work at the rig. However, due to various logistical conditions in the drilling industry, this will not always be possible. Companies with in-house programs are encouraged to establish policies to ensure that their new employees complete the Rig Pass orientation as soon as it is practical.

The ultimate goal of this program is to improve the safety performance of the Contractors and the Exploration and Production Operators and to assist both in satisfying federal, state and industry regulations and recommended practices.

Course Length: Rigpass (8 hours\*) Safegulf (add 1 hour\*) Safeland (add1 hour\*)

\*Allow two hours for testing in addition to instructional time.
